KANSAS MUNICIPAL UTILITIES 2023 REGIONAL MEETINGS

Kansas Municipal Utilities (KMU) invites all city officials to KMU Regional Meetings. The landscape for city-owned utilities continues to evolve and we plan to attend one of six regional meetings across Kansas to learn how KMU works to assist in meeting those challenges and opportunities in training, safety, workforce development, and regulatory and legislative issues. The meetings will also allow you to share your thoughts on how you work to deliver essential utility services to your community.

Presented by members of KMU's leadership team including Executive Director, Brad Mears; Director of Energy Services, John Littleton; Director of Water Services, Katie Miller; and KMU's Attorney, Jill McFarland.

Registration information is below each date/region. For additional questions, contact the KMU office at (620) 241-1423 or email at kmu@kmunet.org.

We look forward to seeing you!

Re: Implementation of Electronic Reporting Rule – K.A.R. 28-15a-32

Under KAR 28-15a-32 (E-Reporting Rule) public water supply systems are required, upon written notification from the Kansas Department of Health and Environment (KDHE), to begin submitting documents, reports, surveys, assessments, monitoring and compliance data electronically. The regulation is listed below:

- 28-15a-32. Electronic reporting requirements.** (a) No later than six months after written notification from the department, each person that operates a public water supply system shall meet the following requirements:
- (1) Submit to the department a written acknowledgment of compliance with the electronic submission requirement; and
 - (2) commence the submission of all required documents, including surveys, assessments, reports, monitoring, and compliance data, by only electronic means.
- (b) Each electronic submission shall be made according to the department's designated procedures. (Authorized by and implementing K.S.A. 65-171m; effective June 7, 2018.)

This letter serves as your written notification that beginning **January 1, 2024**, KDHE will begin phasing in e-reporting requirements. The KDHE will use two applications for e-reporting: 1) Public Water Supply Data Collector (PWSDC), and 2) Compliance Monitoring Data Portal (CMDP). The applications require a separate username and password for each individual that will submit data to KDHE. The PWSDC will be used for submission of assessments, surveys, certificates of delivery and public notices, Lead and Copper Rule Revisions (LCRR) service line inventories and certifications, public water supply contact changes, monthly operating reports, and others. The PWSDC is accessed through the Kansas Drinking Water Application Portal (Portal). The CMDP will be used for reporting private lab water quality data.

During calendar year 2024 KDHE will phase in e-reporting implementation according to the following tentative schedule:

- Phase I: Begin January 1, 2024
LCRR Service Line Inventories
Cyber Assessments
Revised Total Coliform Rule (RTCR) Level 1 Assessments
Public Water Supply Contact Changes
- Phase II: Begin April 1, 2024
Public Notification Rule Certificate of Delivery
Disinfectant and Disinfection Byproducts (DBP) Rule Operational Evaluation Level (OEL)
Consumer Confidence Reports

Phase III: Begin July 1, 2024
Monthly Operating Reports (Surface Water Treatment Rule & Groundwater Rule)
Sample Site Plans: RTCR, LCRR, DBP Stage II
Begin CMDP private lab data beta testing

Phase IV: Begin October 1, 2024
Complete CMDP Private lab data beta testing
Daily Chlorine Residual Logs

Every public water supply (PWS) system must have at least one and not more than 2 Portal accounts. Accounts are specific to an individual and may not be shared by multiple people at a PWS system. Please see the enclosed brochure for instructions on registering for a KDWAP account. Your Portal login will also be used to access Drinking Water Watch for your PWS system. For PWS systems using private labs, instructions for CMDP registration and login will be provided at a later date.

The registration deadline for a Portal account is **December 1, 2023**. After you have established your Portal username and password please login to the PWSDC and select the E-Reporting Acknowledgement Template to confirm that your PWS system will begin submitting information as requested by KDHE through the PWSDC to comply with KAR 28-15a-32.

If you have questions or need additional information, please contact Chad Yamashita at chad.yamashita@ks.gov or phone (785) 296-3016.

Sincerely,

Cathy Tucker-Vogel
Chief, Public Water Supply Section
Bureau of Water

Kansas Portal Account Access Using Old KEAP Username

The KEAP accounts are now inactive. If you had a KEAP account, your information should have transferred to the new Kansas Portal.

- Go to ks.gecsws.com and choose "Forgot your password?"
- Enter the email address associated with your old KEAP account.
- An email will be sent to you with a password reset link.
- Enter the requested information and select Reset.
- You will now be able to log in using your old KEAP username and new password.
- Once logged in you can select PWSDC and log in using the same username and password.

If you do not remember your username or email associated with your old KEAP account, contact Chad Yamashita at 785-296-3016 or email Chad.Yamashita@ks.gov.

Kansas Department of

Fax: 785-559-4258

kdhe.ks.gov/WaterSupply

Kansas Drinking Water Application Portal

Kansas Drinking Water Application Portal (Portal) Replaces KEAP

Each water system must have at least one and no more than two Portal contacts.

This contact will have access to:

- Public Water Supply Data Collector (PWSDC) for submission of documents to KDHE.
- Drinking Water Watch to access information about your water system.

The Portal is currently used to submit:

- Revised Total Coliform Rule (RTCR) Level 1 Assessments
- Capacity Development Survey

In the future the Portal will be used to submit:

- Lead Service Line Inventories
- Cyber Assessments
- Water System Contact Changes
- Documents for Public Notices
- Disinfectant and Disinfection Byproducts (DBP Rule Operational Evaluation Levels (OEL))
- Monthly Operating Reports (Surface Water Treatment Rule and Groundwater Rule)
- Consumer Confidence Reports
- Sample Site Plans: RTCR, LCRR, DBP Stage 2
- Daily Chlorine Residual Logs

Applying For A New Portal Account

- Go to ks.gecsws.com or scan the QR code below and click on "New here? Register..."
- Enter the information requested, create a username, password and PIN. Choose Kansas Department of Health and Environment as the Agency and PWSDC as the Application and select Register.
- Monitor your email account for the confirmation of your submission. You must click the confirmation link in your email to complete the registration process.
- A KDHE employee will confirm your account and you will receive an email indicating your account was approved or denied.

Please contact Chad Yamashita at 785-296-3016 for any help with your account; or by email at: Chad.Yamashita@ks.gov.

Sally,
Here's the contract for the City to review. I know you have already signed the proposal, but I included it here again just because the contract references it. Let me know if you have any questions or concerns.

Regards,
Bill
