FOUNDATION UPDATE: Foundation Director Lindsay Hill provided an update of activities and progress in the Foundation. DISCUSSION ITEMS

- A. AUTOMATED EXTERNAL DEFIBRILLATOR (AED) POLICY:** A proposed policy and procedure for the use of FSCC's AEDs follows. This policy will be presented for approval at the next board meeting.

- B. TRAVEL POLICY:** A proposed policy for general travel. This policy will be presented for approval at the next board meeting.

Fort Scott Community College
Automated External Defibrillator (AED)
Policy and Procedures
Addendum to the FSCC Emergency Action Plan (EAP)

STATEMENT OF PURPOSE

Cardiovascular disease is the single greatest cause of death in the United States. Nearly half of these deaths are due to sudden cardiac arrest (SCA) in out-of-hospital settings, including the workplace. Prompt application of the integrated skills of cardiopulmonary resuscitation (CPR) and automated external defibrillation provide victims of SCA with the greatest chance of survival. Therefore, the college recommends AED deployment provided appropriately trained personnel are available.

An AED is used to treat victims who experience sudden cardiac arrest. It is only to be applied to victims who are unconscious, not breathing normally, and show no signs of circulation such as normal breathing, coughing, or movement. The AED will analyze the heart rhythm and advise the operator if a shock-able rhythm is detected. If a shock-able rhythm is detected, the AED will charge to the appropriate energy level and deliver a shock

- Compliance with this substance abuse program is mandatory for all student-athletes who wish to participate in intercollegiate athletics at Fort Scott Community College. Section 1b: College Notification System

The telephone is the primary means of emergency notification at Fort Scott Community College. This system is intended for the immediate transmission of specific information regarding an emergency to all affected areas of the campus. The College's text message system will be used to distribute and send emergency messages to all subscribers by location. Critical messages will be disseminated via the RAVE messaging system. In addition, the college will utilize personal cell phones for communication.

The President (or VP's) will be the focal point for official emergency communications to the College **Emergency Response Team**. Each team member, upon receiving notification of a campus emergency, is to pass the same information along to those departments/offices under his/her direction. The President or VP of Student Life will notify the following College **Emergency Response Team** members as appropriate:

President	Dean of Students
VP of Finance and Operations	VP of Academic Affairs
Director of Information Technology	Crisis Management Committee
Digital Content Specialist/PR	

Other individuals may also be contacted when necessary.

IMPORTANT: During an emergency, campus phones must be restricted to college official notification. In the absence of phone services, emergency response team members will be expected to communicate via cell phones as necessary.
(Refer to "After hours – Contact Numbers" found on Page 1 of this document.)

RAVE

RAVE is a campus-wide notification system. Students have the opportunity to sign up for this service on the college website at fortscott.edu. Students can choose from the following categories in order to receive text notifications: emergencies and weather closings, athletic events, campus events, and critical dates. Regular standard messaging rates apply.

Section 2: Emergency Purpose and Definitions

2.1 Purpose

The basic emergency procedures outlined in this guide are to enhance the protection of lives and property through effective use of the College and campus community resources. Whenever an emergency affecting the campus reaches proportions *THAT CANNOT BE HANDLED BY ROUTINE MEASURES*, the President or his/her designee may declare a state of emergency (refer to definitions in Section 2.4) and these contingency guidelines may be implemented. There are two general types of emergencies that may result in the implementation of this plan: (1) large-scale disorder; (2) large-scale natural/man-made disaster. Since an emergency may be sudden and without warning, these procedures are designed to be flexible in order to accommodate contingencies of various types and magnitudes.

2.2 Scope

These procedures apply to all personnel, buildings, and grounds owned or operated by Fort Scott Community College.

2.3 Types of Emergencies

Types of emergencies covered by this manual are:

- Tornado
- Severe weather closing/early dismissal
- Medical emergency
- Fire
- Utility failure
- Violent or criminal behavior
- Suicide / Psychological crises
- Bomb threat / Terrorism
- Chemical spill
- Explosion on campus
- Civil disturbances or demonstrations
- Earthquake
- Homeland Security Alert
- Pandemic flu outbreaks

2.4 Definitions of an Emergency

The college President or his/her designee serves as the overall Emergency Director during any major emergency or disaster. The following definitions of an emergency are provided as guidelines to assist in determining the appropriate response:

Minor Emergency: Any incident, potential or actual, which will not seriously affect the overall functional capacity of the college. Report such emergencies immediately to VP of Finance and Operations at 620-223-2700 ext. 5130 for the Fort Scott Campus or to the Associate Deans of the Miami County Campus at 913-294-4178 or the Pittsburg Campus at 620-231-3690, as appropriate. In either case, a *Serious Incident Report* form should be filled out online at: www.fortscott.edu/about/index.aspx and routed to the Dean of Finance and Operations.

Major Emergency: Any incident, potential or actual, which affects an entire building, buildings, or people, and which will disrupt the overall operations of the College. Outside emergency services will probably be required, as well as major efforts from campus support services. Major policy considerations and decisions will usually be required from the College administration during times of crises. Report a major emergency immediately to the Dean of Students at 620-223-2700 ext. 3500 for the Fort Scott Campus or to the Associate Dean of the Miami County campus at 913-294-4178 or the Pittsburg Campus at 620-231-3690, as appropriate.

Disaster: Any event or occurrence that has taken place and has seriously impaired or halted the operations of the College. In some cases, mass student/personnel injuries and severe property damage may be sustained. A coordinated effort of all campus-wide resources is required to effectively control the situation. Outside emergency services will be essential. In all cases of disaster, an Emergency Operations Center will be activated, and the appropriate support and operational plans will be executed. If available, the President's office will be used on the Fort Scott campus and the VP's office will be used on the Miami County or Pittsburg

campus to coordinate disaster response. If not, a suitable site off-campus will be chosen from a list developed in conjunction with the local police department. In addition, any incident that has the potential for adverse publicity concerning campus resources should be promptly reported to the office of the President at 620-223-2700 ext. 5200 or one of the VP's offices as appropriate. During non-business hours, contact either the VP of Student Life for the Fort Scott campus, or the Associate Dean of the Miami County campus or the Crawford County campuses as appropriate.

Only the College President or his /her designee is authorized to speak directly with the media about such incidents without the prior clearance by the President.

2.5 Assumptions

The College Emergency Action Plan (EAP) is based on a realistic approach to the problems likely to be encountered on a campus during a major emergency or disaster. Hence, the following are general guidelines:

- An emergency or a disaster may occur at any time of the day or night, weekend or holiday, with little or no warning. The series of events in an emergency are not predictable; published support and operational plans will serve only as a guide and checklist, and may require field modification in order to meet the requirements of the emergency.
- Disasters may affect residents in the geographical location of the College. Therefore City, County, and Federal emergency services may not be available. A delay in off-campus emergency services may be expected.
- A major emergency may be declared if information indicates that such a condition is developing or is probable.

2.6 Declaration of a Campus State of Emergency

The authority to declare a campus state of emergency rests with the College President or his/her designee as follows:

During the period of any campus major emergency, the Dean of Students, the Associate Dean of the Miami County campus, or the Crawford County campuses, shall place into immediate effect the appropriate procedures necessary in order to meet the emergency, safeguard persons and property, and maintain

educational facilities. The Dean shall immediately consult with the President or designee regarding the emergency and the possible need for a declaration of a campus state of emergency. When this declaration is made, only registered students, faculty, staff, and affiliates (e.g., contract service employees) are authorized to be present on campus. Those who cannot present proper identification (student registration, employee ID or other ID) showing their legitimate business on campus may be asked to leave the campus. Unauthorized persons remaining on campus may be subject to arrest in accordance with the Kansas statutes.

In addition, only those faculty, staff members, and contractors who have been assigned emergency resource team duties or issued an emergency pass by the President, the Dean or designee will be allowed to enter the immediate disaster site.

In the event of tornado, earthquake, aftershocks, fire, severe weather event or major disaster occurring on or about the campus, or which involve College property, the President, the VP and/or VP of Operations, and personnel will be dispatched to determine the extent of any damage to the College property.

Section 3: Specific Emergency Procedures

The following specific emergencies are addressed in this section:

- Reporting Emergencies
- Building/Campus Evacuation
- Medical Emergencies
- Pandemic Outbreak
- Fires
- Severe Weather - Closing/Early Dismissal
- Tornado
- Utility Failure
- Suicide/Psychological Crisis
- Violent or Criminal Behavior
- Bomb Threat
- Chemical Spill
- Explosion on Campus
- Civil Disturbance
- Earthquakes

The procedures covered in this section should always be followed in sequence, unless conditions dictate otherwise.

3.1 Reporting Emergencies

To report an emergency, contact the Dean of Students, (620) 223-2700 ext. 3500 or designee or the Crawford County Campus, (620) 231-3690, or the Associate Dean of the Miami County campus, (913) 294-4178 or their designee. If the situation warrants immediate emergency response, **dial 911**. See After-Hours phone list for contact information in case of emergencies after hours.

The appropriate VP will be prepared to dispatch appropriate emergency response units (Fire/Rescue or Ambulance) to any location on campus, or dispatch appropriate college personnel to provide immediate assistance for hazardous spills, search-and-rescue, and other similar emergencies.

In order to assist the operator in processing the call quickly and efficiently, please be prepared to give the following information:

- What you saw, heard, or found
- The exact location of the incident
- The phone number of the phone you are using
- Details of the situation
- Your name and address

Then **stay on the line** until you are told to hang up.

KEEP CALM . . . KEEP OTHERS CALM!

As soon as time permits, fill out the appropriate serious Accident/Incident Form (found on the Employee Pages, <http://www.fortscott.edu/about/index.aspx>) with pertinent information and forward to your supervisor.

3.2 Evacuation Procedures

3.2a Building Evacuation t

All building evacuations will occur when a building alarm (fire alarm) sounds and/or upon notification by a FSCC designee.

When the building evacuation alarm is activated, leave by the nearest marked exit and alert others to do the same. *EVERYONE MUST EXIT THE BUILDING - ONLY ESSENTIAL EMERGENCY RESPONSE TEAM PERSONNEL ARE PERMITTED IN THE BUILDINGS UNTIL THE ALL-CLEAR IS GIVEN.*

ASSIST THE HANDICAPPED IN EXITING THE BUILDING!

Remember that elevators are reserved for handicapped persons. See procedures below to assist the handicapped.

DO NOT USE THE ELEVATORS IN CASES OF FIRE OR EARTHQUAKE.

Once outside, proceed to a clear area that is at least 500 feet away from the affected building. Keep streets, fire lanes, fire hydrant areas and walkways clear for emergency vehicles and personnel.

DO NOT return to an evacuated building unless told to do so by the building coordinator.

3.2b Campus Evacuation

Evacuation of all or part of the campus grounds will be announced by the FSCC Emergency Response team as described.

All persons (students and staff) are to evacuate immediately the area of campus in question and relocate to another part of the campus grounds as directed.

3.2c Procedure for Emergency Evacuation of Individuals with Disabilities

The following procedures are intended to assist disabled persons with an emergency evacuation from any buildings on the campus of Fort Scott Community College. The guidelines set forth in this section are in compliance with NFPA 101 Life Safety Code and the Americans with Disabilities Act as amended.

Fort Scott Community College policies and procedures require all persons in a facility to evacuate that facility any time the fire alarm system is activated or other emergency that requires building evacuation. Persons with disabilities may not be able to evacuate unassisted. Therefore, they should inform another person that assistance may be necessary during an evacuation.

General Guidelines

- Remember that individuals with similar disabilities are unique. Listen to the individual; he/she is the expert regarding his/her own disability.
- Always ask the individual if there are any special considerations or items that need to come with him/her during the evacuation.
- There are “hidden” disabilities that may need assistance, including health, psychiatric disabilities (anxiety disorders, depression, personality disorders, etc.), and some vision or hearing impairments.
- Some individuals may utilize service animals such as guide dogs, hearing dogs or assistance animals. When possible, keep the team together.

“Buddy System” Option

Persons with disabilities that limit mobility are encouraged to utilize the “Buddy System.” Persons with disabilities that limit mobility may be defined as anyone who uses assistive devices such as canes, crutches, or wheelchairs or who has slower mobility due to illness or injury. Also, persons with limited vision and hearing may need assistance to evacuate.

During the first week of class, students on the Fort Scott campus with disabilities that limit mobility are encouraged to disclose their disability to the Dean of

Students. Students should disclose any special assistance that might be required in the event of a fire alarm or other emergency evacuation. The Dean of Students will work with appropriate staff to then make it part of the emergency action plan to locate and identify the student to the appropriate emergency authorities.

Persons with limited mobility are also encouraged to make acquaintances with fellow students, residents, or class members. When the fire alarm sounds, the “Buddy” will make sure of the location of the person with the disability, and then go outside and inform emergency personnel (Campus authorities, Fort Scott, Crawford County, or Miami County Fire or Police Departments) that a person in a specific location needs assistance in leaving the building. Emergency personnel will then enter the building and evacuate that person.

If conditions allow, the “Buddy” may choose to assist the person with disability during the evacuation of the building.

ELEVATORS ARE NOT TO BE USED IN AN EMERGENCY EVACUATION.

Elevators will stop in the event of a power outage and persons will become trapped inside.

Evacuation Options

Use of the “Buddy System” along with the following evacuation options will help to assure the prompt evacuation of any person with a disability.

- **Horizontal Evacuation:** Move away from the area of imminent danger to a safe distance such as another wing, adjoining building, opposite end of the corridor, or outside if on ground level.
- **Vertical (Stairway) Evacuation:** Stairways can be used by those who are able to evacuate with or without assistance. Enclosed stairways are a safe refuge due to fire and smoke doors that enclose the area. Persons with sight disability may require the assistance of a sighted person. Persons who must use crutches or other devices as walking aids will need to use their own discretion, especially when several flights of stairs are concerned.
- **Stay in Place:** Unless danger is imminent, remain in a room with an exterior window and a telephone, closing the door. Dial 911 for emergency assistance. Give your name, location, and the reason you are calling. Phone lines normally

remain in service during most building emergencies. If the phone lines do fail, you can signal from the window by waving a cloth, towel, sheet, or other object to attract attention.

Disability Guidelines

- Prior planning and practicing of emergency evacuation routes are important in assuring a safe evacuation.
- **Mobility Impaired (Wheelchair):** Persons using wheelchairs should stay in place or utilize some type of horizontal evacuation with their “Buddy” when the alarm sounds. The evacuation “Buddy” should immediately proceed to the evacuation assembly point outside the building and inform emergency personnel about the location of the person with disability. Dial 911 for emergency assistance.
- **Mobility Impaired (Non-Wheelchair):** Persons with mobility impairments, who are able to walk independently, may be able to negotiate stairs in an emergency with minor assistance. If danger is imminent, the individual should wait until the heavy traffic has cleared before attempting the stairs. If there is no immediate danger (e.g., detectable smoke, fire, or unusual odor), the person with disability may choose to stay in the building, using the other options, until emergency personnel arrive.
- **Hearing Impaired:** Most buildings on campus are equipped with fire alarm horn/strobes that sound the alarm and flash strobe lights. The strobe lights are for hearing impaired persons. Persons with hearing impairments may not notice or hear emergency alarms and will need to be alerted of emergency situations.
- **Visually Impaired:** Most buildings on campus are equipped with fire alarm horn/strobes that sound the alarm and flash strobe lights. The horn is for the sight-impaired persons. Most people with a visual impairment will be familiar with their immediate surroundings and frequently traveled routes. Since the emergency evacuation route could be different from the commonly traveled route, persons who are visually impaired may need assistance in evacuating a building. A “Buddy” should offer assistance to the individual with visual impairment and guide him/her through the evacuation route.

3.2d Residence Halls

Boileau Hall has two rooms designated for persons with disabilities: rooms 513 and 515. Greyhound Hall has two rooms designated for persons with disabilities: rooms 209 and 210. At the beginning of each semester, the Director of Student Life will conduct meetings with their floors to discuss the “Buddy System” as well as other emergency procedures including location of nearest stairwells for exit, nearest fire extinguishers and how to use them, etc.

The Director of Student Life tracks disabled persons residing in the halls and provides this list to the FSCC emergency response team. In the event of a fire alarm, the emergency response team members respond to the disabled persons’ rooms to verify whether they were able to evacuate appropriately.

Students who experience temporary disability, such as those who are temporarily on crutches or recovering from a surgical procedure, should identify themselves to the Director of Student Life so that they can be included in this procedure.

3.2e Following Evacuation

Students and personnel are to evacuate the building and congregate in one area. Students *are not* to leave campus without first providing their name and location to college personnel on-site. This is to facilitate communication between parents or others who may call the College to locate the student and to assist College and/or local police in any investigation. Students should make every attempt to contact their parents or other family members to report their condition.

3.3 Medical Emergency

If a medical emergency occurs off campus, call 911.

If serious injury or illness occurs on campus, immediately call 911 or the Switchboard during normal business hours. The Switchboard will notify 911 as necessary. As time permits, please call the Dean of Students, (620) 223-2700 ext. 3500 or designee or Crawford County campus, (620) 231-3690, or the Associate Dean of the Miami County campus, (913) 294-4178 or their designee. Give your name; describe the nature and severity of the medical problem and the campus location of the victim.

In case of minor injury or illness, provide First Aid care. Note: *Only qualified trained personnel should provide first aid treatment (i.e. CPR, AED, etc.).* Use only sterile first aid materials.

In case of serious injury or illness quickly perform the following steps:

1. If available, an automated external defibrillator (AED) should be taken to all medical emergencies.
2. Stay calm and quickly assess the situation.
3. CALL 911 (or the Switchboard) *immediately* if the victim is:
 - having trouble breathing
 - has uncontrolled bleeding
 - has injured an extremity (arm or leg) so that it looks obviously deformed
 - is complaining of or appears to be in severe pain
 - is unconscious or has altered consciousness
 - is having a seizure
 - is complaining of neck pain
 - is unable to stand
 - if you need additional assistance and no one else is available to help
4. Do not administer any type of medical treatment if you have not been specifically trained to do so.
5. Do not move the victim unless their current location is causing them harm or is a possible endangerment to their life.
6. If the victim becomes unconscious, is not breathing or has no pulse, follow the guidelines established in the Automated External Defibrillator (AED) Policy and Procedures Addendum to the EAP.
7. Contact others for additional help.
8. Remain calm and help the victim relax; try to keep them warm and comfortable until experienced medical help arrives.
9. Keep crowds from gathering around the victim and keep the general area clear for emergency personnel.
10. Employees injured on the job are required to notify Human Resources and will be directed to seek treatment immediately at physician's office or emergency room for work-related injury care (Worker's Compensation claims).

3.3.1 Food Borne Illness Emergency Response Plan

In the event of an illness caused by food consumed on campus, the FSCC/food service company and production of that food item will be suspended.

- The food suspected of causing illness will be packaged, labeled, refrigerated and retained for sampling.
- Notification of the illness will be given to the Manager of the food service company, Dean of Students, and the Director of Student Life.
- The Food Service Manager on campus will begin a food-related incident report. This procedure will be followed including sampling and notification of the Kansas Department of Health and Environment, Department of Food Safety and Consumer Protection at 785-296-5600.
- Resumption of food service will be at the direction of the Kansas Department of Health and Environment, Department of Food Safety and Consumer Protection working in conjunction with the food service company.
- The VP of Student Life working in conjunction with the Director of Student Life will coordinate and take necessary steps to ensure college housing residents are provided necessary food supplies.

3.3.2 Airborne Illness Emergency Response Plan

In the event of an illness at FSCC caused by an airborne virus or bacteria, or other airborne contaminant, the air handlers to the building should be shut down immediately and staff evacuated from the building.

- Contact the Dean of Students
- The Dean of Students will notify the VP of Finance and Operations and then continue to assist with evacuation and sealing and/or quarantine of the building.
- At Miami County and Crawford County Campuses contact the appropriate Associate Dean.

Persons suffering with respiratory difficulty should be transported to the nearest hospital for evaluation. Any person in respiratory distress (i.e., short of breath, choking, having difficulty breathing) will need emergency medical assistance. Contact 911.

Dean of Students, (620) 223-2700 ext. 3500, will contact other administrative staff as indicated and the College legal counsel.

The Kansas State Infectious Disease Epidemiology and Response will be contacted at 877-427-7317 to begin an epidemiology investigation.

The building will remain sealed until released by the Kansas State Infectious Disease Epidemiology and Response.

In the event of a possible pandemic flu outbreak, the administrator in charge, in conjunction with other emergency operations personnel, will determine the threat level of the current outbreak and take appropriate actions. These actions may include, but not be limited to, the following:

- cancellation of classes, sporting events and/or other public events;
- closure of campus, student housing, and/or public transportation;
- quarantine of affected students and staff.

3.4 Fire

In all cases of fire, call 911 immediately.

Know the location of fire extinguishers, fire exits, and alarm systems in your area and know how to use them.

If a minor fire appears controllable, promptly direct the charge of the nearest fire extinguisher toward the base of the flame. If an emergency exists, activate the building alarm (fire alarm).

In the case of large fires that do not appear controllable, IMMEDIATELY call 911. Then evacuate all rooms, closing all doors to confine the fire and reduce oxygen available to it. DO NOT LOCK DOORS. Take all personal belongings (cell phones, keys, purses, wallets, etc.).

When the building evacuation alarm is sounded, assume an emergency exists. Walk quickly to the nearest marked exit and alert others to do the same.

***ASSIST THE HANDICAPPED IN EXITING THE BUILDING!
DO NOT USE THE ELEVATORS DURING A FIRE.***

Smoke is the greatest danger in a fire, so stay near the floor where the air will be less toxic.

Once outside, move to the designated assembly point within the area. Keep streets, fire lanes, fire hydrants, and walkways clear for emergency vehicles and crews. Remain in your designated evacuation location until cleared by emergency personnel. If requested, assist emergency crews as necessary.

A Field Emergency Command Post will be set up near the emergency site. Keep clear of the command post unless you have official business.

DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by a FSCC Emergency Response Team Member.

NOTE: *If you become trapped in a building during a fire and a window is available, place an article of clothing (shirt, coat, etc.) outside the window, as a marker for rescue crews. If there is no window, stay near the floor where the air will be less toxic. Shout at regular intervals to alert emergency crews of your location. Use your personal cell phone if available to call 911.*

KEEP CALM, AND HELP OTHERS REMAIN CALM

3.5 Severe Weather Closing/Early Dismissal

If, due to an emergency (e.g., inclement weather, power failure, etc.), it becomes necessary to close the College or to delay the normal work schedule, the College will notify the local TV and radio stations as noted below:

- KODE Channel 12

Director of Institutional Research will update the College's text-messaging system to immediately notify all subscribers of the closing.

3.6 Tornadoes

Tornadoes are one of FSCC's highest risks for a disaster. Tornadoes typically travel on a northeast path. April through August are the highest risk months for a tornado; however, there is potential for a tornado in any month. It is essential for all FSCC constituents to be weather aware as severe weather is just as dangerous as a tornado.

3.6.a Definitions

- **Tornado Watch:** Indicates that conditions exist for a tornado to develop.
- **Tornado Warning:** Indicates that a tornado has actually been sighted or indicated on radar.

NOTE: *One clue that a tornado could develop is when a thunder storm produces hail. The larger the hail stone, the more likely that a tornado will occur.*

When a tornado warning is announced:

- Remain calm. Turn on all available televisions and radios to local weather stations.
- The President, Dean of Students will contact all Building Designees through RAVE and/or cell phone.
- Please do not use the college phone system if possible!
- The Building Designee should go to each room and instruct occupants to evacuate to their designated location until clearance is given.
- Your best protection is an underground shelter (or basement) or a substantial steel-framed or reinforced concrete building.
- If your residence hall or campus building has no basement, take cover under heavy furniture on the ground floor in the center of the building, or

in a small room on the ground floor that is away from outside walls and windows.

- In the off-campus housing locations, students and staff will move to the following areas:
 - Greyhound Lodge: Basement of the building located down the ramp on the northeast side of the building.
 - Garrison Apartments: Try to get to the lower level of Hedges Administration Building. If time does not permit, shelter in the bathroom of an apartment on the lower floor.
- Stay away from windows to avoid flying debris.
- If you are outside and there isn't time to get into a building take cover and lie flat in the nearest depression, such as a ditch, culvert, excavation or ravine.
- ***All occupants should remain in their designated evacuation shelter until clearance is given*** by the Building Coordinator or emergency personnel.

Proceed immediately to the designated storm shelter area for your building and stay there! Stay away from windows.

DO NOT RETURN TO AN EVACUATED BUILDING

Until you are told it is safe to do so, by a college official.

3.6b Building Shelter Plan

3.8 Suicide/Psychological Crisis

Southeast Kansas Mental Health Center (Ask for Crisis Services): 620-223-5030
National Suicide Prevention Lifeline 800-273-8255

A psychological crisis exists when an individual is threatening to harm him/herself or others, or is out of touch with reality due to severe drug reactions or psychological problems.

- Psychological problems may be manifested by hallucinations or uncontrollable behavior. Also, the person could have become lost from his/her nursing home or hospital.

NEVER TRY TO HANDLE A DANGEROUS SITUATION ON YOUR OWN.

If a suicide attempt is verbalized:

1. Remain with the person unless you believe you are at risk with the person.
2. Enlist the help of others in the immediate area if possible.
3. Contact the Dean of Students at 620-223-2700, ext. 3500 or Athletic Director ext. 7230 or designee. Designees at off-campus sites.

5. Someone will need to receive emergency personnel near the entrance and direct them to the location of the suicide attempt.

6. Stay with the victim until the ambulance arrives.

3.9 Serious Violent or Criminal Behavior

- Call 911

- Call **Fort Scott Campus:** Dean of Students (620) 223-2700 ext.3500 or Athletic Director ext. 7230

Miami County Campus: Associate Dean of the Miami County campus, (913) 294-4178 or their designee.

Promptly notify the Dean of Students as soon as possible and report the incident, including the following:

- Nature of the incident.
- Location of the incident.
- Description of person(s) involved.
- Description of property involved.

Everyone is asked to assist in making the campus a safe place by being alert to suspicious situations and by promptly reporting them.

If you observe a criminal act or whenever you observe a suspicious person on campus, immediately notify the Dean of Students or the appropriate Dean on campus.

Assist the officers when they arrive by supplying them with all additional information and ask others to cooperate.

If there is gunfire or an explosion, you should take cover immediately using all available concealment. Call 911 from your personal cell phone if available. After the disturbance, seek emergency First Aid if necessary.

3.9a What to Do If Taken Hostage

- Be patient. Time is on your side. Avoid drastic action.
- The initial 45 minutes are the most dangerous. Follow instructions, be alert and stay alive.
- The captor is emotionally imbalanced. Don't make mistakes that could endanger your life.
- Don't speak unless spoken to and then only when necessary. Don't talk down to the captor who may be in an agitated state. Avoid appearing hostile.
- Maintain eye contact with the captor at all times, if possible, but do not stare. Treat the captor like royalty.
- Try to rest. Avoid speculating. Comply with instructions as best you can. Avoid arguments. Expect the unexpected.
- Be observant. You may be released or escape. The personal safety of others may depend on your memory.
- Be prepared to answer the police on the phone. Be patient, wait. If the opportunity presents itself attempt to establish rapport with the captor.

- If medications, First Aid, or rest room privileges are needed by anyone, say so. In all probability, the captors do not want to harm persons held by them. Such direct action further implicates the captor in additional offenses.

3.10 Bomb Threat

If you become aware of a bomb threat:

Fort Scott Campus: Dean of Students (620) 223-2700 ext.3500 or the VP of Finance and Operations (620) 223-2700 ext. 5130 or Athletic Director ext. 7230

Miami County Campus: Associate Dean of the Miami County campus, (913) 294-4178 or their designee.

If you observe a suspicious object or potential bomb on campus, **DO NOT HANDLE THE OBJECT!** Clear the area and immediately call the 911. Then report the incident immediately to the Dean as appropriate and noted above.

If you receive a bomb threat over the telephone:

- Remain calm, courteous, and professional. Do not place caller on hold or attempt to transfer the call.
- Allow the caller to complete everything he/she has to say. Never argue with or ridicule the caller. Let the caller know you want to save lives and urge him/her to help you.
- Where possible, have someone responsible quietly listen into the conversation.
 - Attempt to ask the caller the following questions and write down the answers as possible:
 - o When is the bomb going to explode?
 - o Where is the bomb located?
 - o What kind of bomb is it?
 - o What does it look like?
 - o Why did you place the bomb?

Keep talking to the caller as long as possible and record the following:

- The time of the call
- The age and gender of the caller
- The caller's speech pattern, accent, etc.

- The emotional state of the caller
- Any background noise you are able to hear
- Any other characteristics of the caller that you noted

Call the 911 as soon as possible. If possible, have someone else call 911 while you have the caller on the phone.

The Fort Scott Police Department with assistance from FSCC personnel will conduct a detailed bomb search. College staff members are requested to make a cursory **VISUAL** inspection of their area for suspicious objects and to report the location to the FSCC emergency response team.

DO NOT TOUCH THE OBJECT!

Do not open drawers, cabinets, or turn lights on or off.

If an emergency exists, activate the building alarm (fire alarm) and evacuate the building.

When the building evacuation alarm is sounded or an emergency exists, walk quickly to the nearest marked exit and alert others to do the same.

ASSIST THE HANDICAPPED IN EXITING THE BUILDING!

Remember that elevators are reserved for handicapped persons.

Do not use elevators in case of fire.

REMAIN CALM, AND HELP OTHERS TO REMAIN CALM.

Once outside, move to a clear area at least 500 feet away from the affected building. Keep streets, fire lanes, hydrants, and walkways clear for emergency vehicles and crews.

If requested, assist emergency crews as necessary.

DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by the Fort Scott Police Department.

3.11 Chemical Spill

If you observe or suspect that a chemical spill has occurred, contact the FSCC Facilities Department at extension 4610 or 4700.

Whenever hazardous substances (solids, liquids, or gases) are unintentionally released on FSCC property, every effort shall be made to protect students, employees, visitors, responders, the general public, and the environment from exposure to the substance.

Each employee who handles potentially hazardous substances must be aware of the identity and nature of the substances with which they work, and will be trained in the handling and disposal of these substances per state and federal guidelines. Students must not be allowed to handle potentially hazardous substances except when under the direct supervision of a faculty or staff member.

3.11a Procedures for Unintentional Releases (Spills) of Potentially Hazardous Substances

Small Releases of Relatively Nontoxic Materials

When a small amount of a relatively nontoxic material (such as paint, adhesives, or oil) is unintentionally released, if the person(s) working with the material can remediate the spill safely, they should do so. It is highly recommended that each work area that uses these types of materials have supplies on hand for use in the cleanup. For example, in the event of a paint spill, there should be some absorbent such as an “oil dry” product, vermiculite, or cat litter for use on the spilled material. The used absorbent must be disposed of properly. The affected area must immediately be cleared of all persons who are not involved in the spill remediation.

If the person(s) working with the material believe that they are unable to remediate the spill, they should immediately contact FSCC Facilities Department at extension 4610 or 4700.

Larger Releases of Relatively Nontoxic Materials or Releases of Moderately Hazardous Materials

A moderately hazardous material is one with any of the following characteristics:

- The material is considered to be caustic (acidic or basic)
- The material is flammable
- The material has a significant vapor pressure (a noticeable odor)

Whenever any of these materials is spilled, the area must immediately be cleared of all students and all nonessential employees. If the person(s) working with the material can *safely* remediate the spill, they should do so as soon as the area is cleared of all nonessential persons. If the spill cannot safely be remediated by the person(s) working with the material, contact FSCC Facilities Department at 620-223-2700 extension 4610 or 4700.

The FSCC Facilities Department will be responsible for contacting state and federal spill emergency response teams if necessary.

3.11b Any Release of Any Highly Hazardous Material

Highly Hazardous Materials are those that have the following characteristics:

- Are toxic gases
- Are liquids with high vapor pressures and toxic vapors
- Can be reasonably expected to be an imminent fire hazard

If a highly hazardous material is spilled or released, the building must immediately be cleared, contact the FSCC Facilities Department.

Department will be responsible for contacting state and federal emergency response teams if necessary.

Whenever there is a spill or release of toxic gases or volatile liquids, evacuated persons are to leave the affected building and go to a location *upwind* of the spill location.

NOTE:

As per US Occupational Safety and Health Administration (OSHA) regulations, the members of any Spill Response Team must have successfully completed the 40-hour Hazardous Waste Operations and Emergency Response (HAZWOPER) training course. ONLY HAZWOPER trained persons are legally qualified to be on the Spill Response Team. Therefore, College employees should not attempt to clean up highly hazardous materials.

3.12 Explosion on Campus

If an explosion occurs on campus, take the following action:

- Immediately take cover under tables, desks, and other objects that will protect you from falling glass or debris.
- After the immediate effects of the explosion and or fire have subsided, call 911 either using the College phone system or your personal cell phone. Give your name and describe the location and nature of the emergency.
- If necessary, or when directed to do so, activate the building alarm (fire alarm).
- When the building evacuation alarm is sounded or when you are told by college officials to leave or emergency response personnel, walk quickly to the nearest marked exit and advise others to do the same.

ASSIST THE HANDICAPPED IN EXITING THE BUILDING!

Remember that elevators are reserved for handicapped persons.

DO NOT USE ELEVATORS IN CASE OF FIRE.

REMAIN CALM.

Once outside, move to the designated clear area that is at least 500 feet away from the affected building. See emergency route maps posted in buildings.

Keep streets and walkways clear for emergency vehicles and crews. Know your area assembly points.

If requested, assist emergency crews as necessary.

A Field Emergency Command Post may be set up near the disaster site. Keep clear of the command post unless you have official business.

DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by a college official.

3.13 Civil Disturbance or Demonstrations Most campus demonstrations such as marches, meetings, picketing, and rallies will be peaceful and non-obstructive.

A student demonstration should not be disrupted unless its participants are violating the Student Code of Conduct (as outlined in the Student Handbook). Such violations might include but are not limited to the following:

- Intentional or reckless interference with normal College activities and functions. (Examples of such activities/functions include but are not limited to studying, teaching, public speaking, research, administration of the College, or emergency, fire, or police operations
- Intentional interference with the freedom of expression of others
- Actions, explicit or implied threats, or gestures, which place a person in reasonable fear of unwelcome physical contact or harm
- Intentional or reckless behavior which may, or in fact does, deface or cause damage to college property or the property of others

If any of these conditions exist, the Dean of Students. Depending on the nature of the demonstration, the appropriate procedures listed below should be followed.

3.13a Peaceful, Non-Obstructive Demonstrations

Generally, demonstrations of this kind should not be interrupted or obstructed in any way. Efforts should be made to conduct College business as normally as possible.

- Determination will be made by the Dean of Students or his/her designee to treat the violation of regular closing hours as a disruptive demonstration (see below).

3.13b Non-Violent/Violent, Disruptive Demonstrations

In the event that a demonstration's participants are violating the Code of Conduct:

- The Dean of Students will immediately contact the President and then proceed to the scene. If demonstrators have not discontinued their violations, the Dean will ask the demonstrators to leave or to discontinue their violations of the Code of Conduct.

- If the demonstrators persist in their violations, they will be apprised that failure to discontinue the specified action within a determined length of time will result in disciplinary action and/or possible intervention by police authorities.
- Efforts, including the taking of photographs, if necessary, should be made to secure positive identification of demonstrators violating the Code of Conduct in order to facilitate later investigation.
- The Dean of Students and the President will determine the need for police intervention.
- If determination is made to seek police intervention, the demonstrators will be so informed.
- Upon arrival of the Fort Scott Police Department, the remaining demonstrators will be warned of the Police Department's intention to arrest.

3.14 Earthquake

During an earthquake, remain calm and quickly follow the steps outlined below.

- **If Indoors:** Seek refuge in a doorway or under a desk or table. Stay away from glass windows, shelves, and heavy equipment.
- **If Outdoors:** Move quickly away from buildings, utility poles, and other structures.

CAUTION: *Always avoid power or utility lines as they may be energized.*

If in an automobile, stop in the safest place available, preferably away from power lines and trees. Stop as quickly as safety permits, but stay in the vehicle for the shelter it offers.

After the initial shock, evaluate the situation and if emergency help is necessary, call 911.

Protect yourself at all times and be prepared for aftershocks.

Damaged facilities should be reported to the VP of Finance and Operations.

NOTE: *Gas leaks and power failures create special hazards. Please refer to the section on Utility Failures (Section 8.7).*

If an emergency exists, activate the building alarm (fire alarm). When the building evacuation alarm is sounded, walk to the nearest marked exit and ask others to do the same.

ASSIST THE HANDICAPPED IN EXITING THE BUILDING!

Remember that elevators are reserved for use by the handicapped persons.

DO NOT USE ELEVATORS IN CASE OF FIRE. REMAIN CALM.

Once outside, move to a clear area at least 500 feet away from the affected building(s). Keep streets, fire lanes, hydrants, and walkways clear for emergency vehicles and crews. If requested, assist emergency crews as necessary. A Field Emergency Command Post may be set up near the emergency site. Keep clear of the command post unless you have official business.

DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by a college official.

3.15 Violent Intruder

Armed Intruder Emergency Information

An armed intruder emergency involves one or more persons using a weapon, most commonly a firearm engaging in a random or systematic attack. The vast majority of attacks in this country are over in a matter of minutes, involve persons known to one another, and are confined to a particular area.

Traditional response to this type of incident has been to shelter in place and wait for the police to arrive. While this type of response is not completely wrong, case studies of several armed intruder incidents have shown that using only this response has resulted in an increase in casualties. This college has adopted the “ALICE” response plan to assist you in your response to this type of incident.

A.L.I.C.E.

“A.L.I.C.E.” is an acronym for 5 steps you can utilize to increase your chances of surviving an attack by an armed intruder. It is important to remember that the “ALICE” response does not follow a set of actions you “shall, must, will” do when confronted with an armed intruder. Your survival is paramount in this situation. In this type of incident, your perception is the reality and you will be deciding what the appropriate action for you is to take.

- 1) **Alert** – Can be anything
 - Gunfire
 - Witness
 - Running/Chaos
 - Text Alert
 - Email Alert
 - Social Media
- 2) **Lockdown** – This is a semi-secure starting point from which to make a survival decision. If you decide to not evacuate, secure the room.
 - Lock the door
 - Cover any windows in the door if possible
 - Barricade the door with anything available

- Tie down the door if possible
 - Look for alternative escape routes
 - Call 911
 - Move out of the doorway in case gunfire comes through it
 - Once secured, do not open the door for anyone. Police will enter the room when the situation is over.
 - Gather weapons (cups, desks, laptops, phones) and mentally prepare to defend yourself or others.
 - Put yourself in a position to surprise the attacker should they enter the room.
- 3) **Incorm** – Using any means necessary to pass on real time information.
- Given in plain language
 - Can be derived from 911 calls, video surveillance, etc.
 - Who, what, where, when and how information.
 - Can be used by people in the area or who may come into it to make common sense decisions.
 - Can be given by phone alerts, PA announcements, push notifications, or police radio speakers.
- 4) **Counter** – This is the use of simple, proactive techniques should you be confronted by the armed intruder.
- Anything can be a weapon.
 - Throw things at the intruder’s head to disrupt their aim.
 - Create as much noise as possible.
 - Attack in a group (swarm).
 - Grab the intruder’s limbs and head and take them to the ground and hold them there.
 - Fight dirty – bite, kick, scratch, gouge eyes, etc.
 - Create chaos.
 - In you have control of the shooter, call 911 and tell the police where you are and listen to their commands when officers arrive on scene.
 - Do not take the weapon and hold it on the intruder. The police will not take the time to ask questions. Their priority is to eliminate the threat.
- 5) **Evacuate** – Remove yourself from the danger zone as quickly as possible.
- Decide if you can safely evacuate.
 - Run zigzag patterns as fast as you can.
 - Do not stop running until you are far away from the area.
 - Break out windows and attempt to quickly clear glass from the frame.

APPENDIX B: Homeland Security

Fort Scott Community College (FSCC) is sensitive to the dangers of terrorism and the responsibility for providing safety to our students, faculty, and staff. Every member of our campus community has the responsibility to work toward creating a safe and secure campus. The heightened security in the United States asks people to be particularly attentive of their surroundings as they go about their normal business. FSCC's response to Homeland Security should be one of awareness, but not one of fear or panic. Below are responses to the most frequently asked questions.

Q: How is FSCC preparing for homeland security?

A: The College has an Emergency Response Plan, and an emergency response team who are prepared to give leadership, guidance, and support in the event of a Homeland Security Alert. The College President and his/her designee are responsible for putting the plan into motion.

Q: Is FSCC prepared for different kinds of emergencies?

A: The College is prepared for various emergencies that include medical emergencies, security emergencies, evacuations, weather-related situations, and other needed emergency responses. Through the FSCC Crisis Management team, Fort Scott Police and Fire Departments, city, county and state agencies, the Red Cross and FEMA, the College has access to an abundance of resources.

Q: What physical resources will be available for persons on campus?

A: Food, water, and shelter will be provided for all persons restricted to the campus. Staff from the Office of Student Services will coordinate the access of these resources in cooperation with the VP of Student Life and general manager of Food service company food services. In the event of catastrophic event and food services are unavailable, a limited amount of water and food rations are maintained for such emergencies.

Q: If an emergency occurs, how do I get information about what to do?

- **Baseball field/Softball field/Turf Practice Field** - If you are located on the baseball fields, softball fields or turf practice field, please proceed to the north parking lot of Greyhound to park vehicles and go into the entrance door to the

basement of the Dick Hedges Administration Building and await further instructions.

- **Residence Halls** - If you are located in a residence hall, the Dorm Director and RA's, along with other staff, will come to advise students.
- **Arnold Arena –Rodeo Arena** -If you are in the weight room, gym or Rodeo Arena please proceed to the Dick Hedges Administration Building's basement and await instructions.
- **Bailey Hall – Vocational Building** - If you are located in Bailey Hall or the Vocational Building, please go to the Round Rooms in Bailey Hall and await instructions.
- **Danny & Willa Ellis Fine Arts Building** – If you located in the Fine Arts Building, please go to the Round Rooms in Bailey Hall and await instructions.
- **Dick Hedges Administration Building** – If you are in the Dick Hedges Administration Building, please process to the basement and await instructions.

We will use all means available to communicate with students, faculty, and staff, including voice mail, electronic mail, text-messaging, electronic messaging screens and campus pcs, walkie-talkies, bull-horns, and person-to-person messengers assigned those responsibilities.

Q: How can students and parents obtain information?

A: The College will do its best in an emergency to maintain telephone communication. The FSCC Web site (www.fortscott.edu) will carry pertinent information. There will also be updated information on the College main switchboard number 620-223-2700. Critical messages will be disseminated via the RAVE text messaging system.

Q: What can you do to help right now?

A: Campus safety is the responsibility of every community member. As you go about your daily routine, be observant and do your part to help maintain a safe campus. It is important for everyone to be especially observant and to report unusual or suspicious behavior to the Deans in a timely manner. Such behavior could include [but not limited to]:

- People in buildings or areas who do not appear to be conducting legitimate business
- Unauthorized personnel in restricted, sensitive, or private areas
- Persons abandoning parcels or other items in unusual locations

- Abandoned vehicles
- Unfamiliar vehicles with person/s sitting inside

You can also help by following these normal security procedures:

- Do not prop open or compromise building/residence hall entrance doors/windows. Rectify these situations when you observe them.
- Secure all your areas when you are not present.
- Protect access codes.
- Familiarize yourself with evacuation plans and routes.

You can also be more in touch through the following actions:

- **Sign up for RAVE at www.fortscott.edu under the Quick Links section by clicking on “FSCC Alerts!”**

Q: Whom should you call if you notice suspicious behavior?

A. Call the Dean of Students 620-223-2700 ext. 3500, VP of Finance & Operations 620-223-2700 ext. 5130, VP of Instruction 620-223-2700 ext. 3400 or assigned designee.

A Special Message to International Students and Families

Key contacts are the Dean of Students at 620-223-2700, ext. 3500 and the Director of Student Life at 620-223-2700, ext. 3526.

In the event that telephone communication is disrupted because of increased calling traffic, family and friends should know that the College e-mail system is usually operational and may be the most efficient way to maintain contact. The FSCC website www.fortscott.edu will be updated as needed.

National Terrorism Advisory System (NTAS) When the *National Terrorism Advisory System* announces a security alert the College will act promptly to notify all constituents.

The National Terrorism Advisory System, or NTAS, replaces the color-coded Homeland Security Advisory System (HSAS). This new system will more effectively

communicate information about terrorist threats by providing timely, detailed information to the public, government agencies, first responders, airports and other transportation hubs, and the private sector. It recognizes that Americans all share responsibility for the nation's security, and should always be aware of the heightened risk of terrorist attack in the United States and what they should do. (Source: NTAS website, www.dhs.gov/alerts)

Current NTAS Alerts can be found at the following link:

E. RESOLUTION 2024 - 51: CONSIDERATION OF LAUNDRY SERVICE FEE

BACKGROUND: Students who reside in the residence halls are currently charged \$25 per semester to use the on-campus laundry facilities. This fee has been the same amount for many years. An increase in the fee would support the maintenance needs of laundry appliances.

RECOMMENDATION: It is recommended the Board approve the updated laundry service fee from \$25 per semester to \$100 per semester, effective with the Spring, 2025 semester.

No Cooling Off Period

California Law does not provide for a "cooling off" or other cancellation period for vehicle lease or purchase contracts. Therefore, you cannot later cancel such contracts simply because you change your mind, decide the vehicle costs too much, or wish you had acquired a different vehicle. After you sign a motor vehicle purchase or lease contract, it may only be cancelled with the agreement of the seller or the lessor for legal cases, such as fraud.
