

To our fellow Southeast Kansans,

We would like to invite you to participate in our community survey! Your input will be crucial to shaping our community needs assessment and guiding future programming. Together, we can build a better future for our entire community. Please take the first step on this journey and complete the survey below:

Scan the QR code to complete the survey today!

The Southeast Kansas Community Action Program (SEK-CAP) was established in 1966, as a 501(c)3, non-profit organization to fight poverty and improve the quality of life for individuals and families in the southeast Kansas region. Its purpose is to provide services and support that help empower people and promote self-sufficiency across twelve counties in southeast Kansas. We offer a range of programs, including those focused on housing, early childhood education, transportation, and community engagement, with the goal of addressing the specific needs of the community and reducing the barriers to economic and social well-being.
