INTRODUCTION TO TEXTMYGOV

TextMyGov was developed to open lines of communication with local government agencies and citizens. The system works 24 hours a day and easily connects with your website and other communication methods.

Using the regular messaging app on any smartphone, the smart texting technology allows the citizen to ask questions and get immediate responses, find links to information on the agency's website, address problems, report any issues and upload photos.

According to the Pew Research Center, 97% of smartphone owners text regularly. The technology analysts at Compuware reported that 80 to 90% of all downloaded apps are only used once and then eventually deleted by users.

TEXTMYGOV SOLUTION

Summary for: Uniontown

FEATURE	SOLUTION
